

DelStar Technologies manufactures Naltex® plastic fencing in five colors and a variety of sizes. This lightweight, durable fence provides an inexpensive solution for creating barriers in a variety of environments. It is perfect for short-term, long-term or repetitive use.

Naltex

Plastic Fencing for Temporary Applications

Green Naltex fence is ideal for maintaining crowd control at events where an unobtrusive barrier is preferred.

The diamond mesh configuration of Naltex fence has mesh openings that look very similar to chain-link style fence. However, unlike metal, Naltex fence does not corrode or conduct electricity. It is also safer to handle than metal because its smooth, extruded construction will not pinch or cut.

Naltex plastic fencing is rigid and self-supporting, yet flexible enough to manipulate around corners and in small areas for quick and easy installation. It is ideal for use in sites ranging from heavy-duty construction to gardening. The UV-stabilized plastic can withstand harsh sunlight for long periods of time. Plus, it is environmentally-friendly because it is non-toxic and fully recyclable.

Naltex

Applications

Naltex plastic fencing provides an economical way to create safe indoor and outdoor barriers.

- Construction Sites
- Sporting Events
- Parks
- Airports
- Property Lines
- Manufacturing Plants
- Pedestrian Walkways
- Schools
- Gardens
- Highways
- Tourist Attractions
- Outdoor Events

Multi-Purpose Plastic Fencing

Naltex plastic fencing can be utilized to create all sorts of interior and exterior barriers. Available in five colors, it is suitable for a wide range of applications, depending on the look you need to achieve. Plus, all Naltex fence is UV-stabilized and will never require painting.

Use orange Naltex fence to create high-visibility barriers around hazardous areas or along roadways. Yellow Naltex fence is ideal for marking safe zones or in sensitive environmental areas. White Naltex fence provides high-visibility boundaries for sporting events or on playgrounds.

Choose green or black Naltex fence when a more subtle boundary is preferred. These options are ideal for creating pathways in nature areas, for crowd control at recreational events, or for other industrial or residential uses.

Flexibility to Meet Varied Customer Needs

DelStar Technologies stocks most of the Naltex fence products, but we can also customize them to meet your exact requirements. Whether you need a specific size or prefer a different color, as a manufacturer, we have the flexibility to supply it.

Part Number	Color	Roll Size	Availability	Style
1465-0	Orange	4' x 50' 1.2m x 15m	stock	Diamond Mesh
1410-0	Orange	4' x 100' 1.2m x 30m	stock	Diamond Mesh
13558-8	Yellow	4' x 50' 1.2m x 15m	stock	Diamond Mesh
1465-6	Green	4' x 50' 1.2m x 15m	stock	Diamond Mesh
1730-50'	Black	4' x 50' 1.2m x 15m	stock	Diamond Mesh
1465-W	White	4' x 50' 1.2m x 15m	custom	Diamond Mesh
13558-6	White	4' x 100' 1.2m x 30m	custom	Diamond Mesh
13558-7	Green	4' x 100' 1.2m x 30m	custom	Diamond Mesh
1410-OP	Orange	4' x 100' 1.2m x 30m	stock	Warning Barrier

*Additional custom varieties available in 5' (1.5m) and 6' (1.8m) heights.

Yellow Naltex fence provides high-visibility for identifying runway closures and restricting access in hazardous areas at airports.

White Naltex fence is an all-purpose boundary marker for raceways, baseball and soccer fields or at any sporting or recreational event.

Black Naltex fence creates a high-strength barrier in industrial environments. It provides inexpensive protection around moving machinery.

Orange Warning Barrier Fence is an extremely lightweight alternative to our Diamond Mesh Fence. It is best for very short term projects or for marking underground pipes and wires.
