FOR IMMEDIATE RELEASE:

DelStar Technologies, Inc. Announces New Stocking Levels for Coretec™ Fractional Fluoropolymer Tubing

RICHLAND, PA (July 14, 2006) – DelStar Technologies, Inc. announced today that they have instituted new stocking levels for their Coretec collection of fractional fluoropolymer tubing, specifically their certified Teflon® FEP and PFA products.

DelStar now inventories their Coretec fluoropolymer tubing from 5/32 to one inch (3.9 to 25.4 mm) outside diameter, with wall thicknesses of 0.030 or 0.062 inch (0.762 to 1.57 mm.) They stock bulk continuous lengths of these products (up to 1000 feet/304.8 meters) and can cut to size and ship for distribution on the same day an order is received.

DelStar also specializes in custom work and is willing to stock proprietary configurations for their customers. DelStar's Coretec fluoropolymer tubing can be extruded in a variety of custom colors and sizes, with up to an eight inch (20 cm) outside diameter. Maximum available lengths will vary with diameter and wall thickness.

DelStar Technologies, Inc. is a licensed manufacturer of DuPont™ Teflon fluoropolymers. Their collection of fractional FEP and PFA tubes include FDA compliant and USP Class VI products. These chemically inert tubes exhibit excellent strength and thermal stability in long-term, high-temperature applications (up to 500 degrees Fahrenheit/260 degrees Celsius.)

DelStar Technologies, Inc., headquartered in Middletown, DE, has manufacturing operations at that location, as well as in Austin, TX, Richland, PA, El Cajon, CA, and Suzhou, China. DelStar Technologies also has international sales offices in Bristol, England and Shanghai, China. For more information, visit DelStar Technologies on the internet at www.delstarinc.com.

DelStar Technologies, Inc. is a portfolio company of American Capital Strategies, Ltd., (NASDAQ: ACAS.)
